Radiation Therapists
For All Workflows

**One System
for all Positioning and
Immobilization needs**

Workplace ergonomics

Provide a better workplace experience with lightweight and easy to clean immobilization devices that will contribute to a fast working time and higher throughput.

Make patient comfort a priority

Minimal pressure points and soft cushions, designed to fit all anatomies.

Maximize clearance, minimize collision

The full AIO setup fits in small CT-bores (minimum 65 cm / 25.59") and reduces the risk of collision with the gantry.

Daily patient setup made easy

Position of the cushions is easily reproduced for each fraction.

MR Safe

All components are available in an MR compatible version.

NEW:
Prone Positioning
for Breast Treatments

One solution for all patients, all indications, and all workflows

Brain, Head & Neck

Breast & Lung

Belly & Pelvic (in prone and supine)

Prone Breast

The different modules turn The AIO Solution into a versatile system that upgrades or downsizes to meet your specific requirements for patient positioning and immobilization. Treat patients with lesions in brain, head and neck, thorax, lung and pelvis, in a precise, reproducible and comfortable way.

Stereotactic Body Radiation Therapy (SBRT) add-ons now available

Easy set-up
& quick release
functionality

Stereotactic Radiosurgery (SRS treatments)
